NEW ZEALAND ENERGY CORP.

Second Quarter 2019
Condensed Consolidated Interim Financial Statements

30 June 2019

(Expressed in Canadian Dollars)

(Unaudited)

NOTICE TO READER

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the condensed consolidated interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements of New Zealand Energy Corp. ("the Company") have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for the review of condensed consolidated interim financial statements by an entity's auditor.

1. DESCRIPTION OF BUSINESS AND GOING CONCERN

New Zealand Energy Corp. (the "Company") commenced operations on 19 April 2010 through its now wholly-owned subsidiary, East Coast Energy Ventures Limited. The Company was subsequently incorporated on 29 October 2010 under the name 0894134 B.C. Ltd. pursuant to the *Business Corporation Act* (British Columbia). On 10 November 2010, 0894134 B.C. Ltd. changed its name to New Zealand Energy Corp.

The Company, through its subsidiaries, is engaged in the exploration and production of oil and natural gas, as well as the operation of midstream assets, in New Zealand.

The Company's registered and records office is located at Suite 2800, Park Place, 666 Burrard St, Vancouver BC V6C 2Z7. The Company's principal place of business is 14 Connett Road, New Plymouth, New Zealand 4312.

The Company's shares are listed on the TSX Venture Exchange under the symbol "NZ".

Going Concern

The Group has improved its financial position during 2019 and continues to pursue a number of options to continue to improve its financial capacity. This includes increasing cash flow from oil and gas production (including development of the enhanced oil project and installation of the Ngaere-1 ESP in April 2019), maintaining credit facilities, new commercial arrangements or other financing alternatives.

The Group has prepared these consolidated financial statements using International Financial Reporting Standards ("IFRS") applicable to a going concern. The going concern principle contemplates that the entity will continue in operation for the foreseeable future and has the ability to settle its liabilities in the normal course of business as they come due. Material uncertainty exists related to certain conditions that may cast significant doubt on the validity of this assumption. For the six months ended 30 June 2019, the Company reported a Net Loss of $685,830 (2018: Profit $197,375) and a cash inflow from operating activities of $130,016 (2018: $353,204) and as at that date, the Company had positive working capital of $938,318 (2018: $1,246,055).

The Group's ability to continue as a going concern is reliant upon its ability to generate budgeted cash flows from operations which are reliant on achieving planned production levels and forecast oil prices, all of which are uncertain. The Group also has several permit expenditure plans (Note 15) which are associated with the Group's interest in its oil and gas properties and exploration and evaluation assets.

These consolidated financial statements do not reflect adjustments in the carrying values of the assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used, would be necessary if the Company were unable to realize its assets and settle its liabilities in the normal course of operations. Such adjustments could be material.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting policies specific to certain balances are described within the detailed note in the sections below.

General accounting policies adhered to in these financial statements are as follows:

Basis of Preparation

The unaudited condensed consolidated interim financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34, Interim Financial Reporting. The unaudited condensed consolidated interim financial statements should be read in conjunction with the audited annual consolidated financial statements for the year ended 31 December 2018, which have been prepared in accordance with IFRS as issued by the IASB and interpretations issued by the IFRS Interpretations Committee (IFRS IC) applicable to companies reporting under IFRS.

These unaudited condensed consolidated interim financial statements have been prepared on a historical cost basis except as disclosed in the accounting policies. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Except as disclosed in the Changes in Accounting Policies below, the Company has used the same accounting policies and methods of computation as in the audited annual consolidated financial statements for the year ended 31 December 2018.

(Expressed in Canadian Dollars)

Changes in Accounting Policies

IFRS 16 “Leases”

NZEC adopted IFRS 16 on 1 January 2019, which replaces IAS 17 “Leases”, and requires a recognition of lease assets and lease liabilities on the balance sheet. The standard essentially eliminates the classification of operating or finances leases, rather treating all leases as finance leases if NZEC has a right to use an identifiable asset. NZEC has used the modified retrospective approach which does not require restatement of prior period financial information - it recognizes the cumulative effect as an adjustment to opening retained earnings and applies the standard prospectively.

On adoption of IFRS 16, NZEC did not identify any material differences from its current recognition practice and no adoption adjustments were made. This is principally due to the short-term duration of the majority of the company’s leases and the exclusion of leases to explore for or use hydrocarbons from the scope of IFRS 16. In applying IFRS 16 for the first time, NZEC has used the following practical expedients permitted by the standard:

- the accounting for leases with a remaining lease term of less than 12 months as at 1 January 2019 as short-term leases; and
- the accounting for lease payments as an expense and not recognise a right-of-use asset if the underlying asset is of low dollar value.

Upon the adoption of IFRS 16, the Company adopted the following significant accounting policy effective 1 January 2019:

Leases
A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. A lease liability is recognized at the commencement of the lease term at the present value of the lease payments that are not paid at that date. At the commencement date, a corresponding right-of-use asset is recognized at the amount of the lease liability, adjusted for lease incentives received, retirement costs and initial direct costs. Depreciation is recognized on the right-of-use asset over the lease term. Interest expense is recognized on the lease liabilities using the effective interest rate method and payments are applied against the lease liability. NZEC will continue to use the ‘short term’ and ‘low value’ exemptions where applicable.

In determining the impact as immaterial the following key areas where management has made judgments, estimates, and assumptions related to the application of IFRS 16 include:

- The incremental borrowing rates are based on judgments including economic environment, term, currency, and the underlying risk inherent to the asset. The carrying balance of the right-of-use assets, lease liabilities, and the resulting interest expense and depreciation expense, may differ due to changes in the market conditions and lease term.
- Lease terms are based on assumptions regarding extension terms that allow for operational flexibility and future market conditions.

All other standards, interpretations and amendments approved but not yet effective in the current year are either not applicable to the Company or are not expected to have a material impact on the Company’s consolidated financial statements and therefore have not been discussed.

(Expressed in Canadian Dollars)

9. SHARE CAPITAL

a) Share purchase options

Pursuant to the Company's share option plan, non-transferable options to purchase common shares must not exceed 10% of the number of then outstanding common shares, or 23,212,346 options, based on the total issued and outstanding common shares as at 30 June 2018. Such options can be exercisable for a maximum of five years from the date of grant. The exercise price of each share option is set by the Board of Directors at the time of grant but cannot be less than the market price at the time of grant. Vesting of share options is at the discretion of the Board of Directors at the time the options are granted.

	867,143	824,073	**1,774,370**	1,720,701

12. RELATED PARTY TRANSACTIONS

Entities associated (by virtue of there being a common director) with the Company include: Greymouth Petroleum Limited, Tiger Drilling Ltd and GMP Environmental Ltd. The following transactions and balances with these related parties are:

	Note	Three months ended 30 June		Six months ended 30 June	
		2019	2018	2019	2018
		$	$	$	$
Processing revenue		83,931	80,021	162,683	159,238
Production costs		285,506	143,247	445,102	303,307
Trade receivables		31,644	31,629	31,644	31,629
Trade payables		18,705	21,243	18,705	21,243
Oil & Gas properties expenditure		265,335	-	265,335	200,422
Total settlement for royalty discharge	i)	-	3,286,185	-	3,286,185
Current financial receivable	i)	-	972,904	-	972,904

i) In March 2017 Taranaki Ventures Limited (TVL) acquired an Overriding Royalty (Royalty Agreement) from a third party which contained an obligation due by a related party of TVL. Concurrently TVL agreed to fully discharge and cancel the related party's obligations under the Royalty Agreement in return for payment from the related party. Payment to the third party (Note 8) and receipt from the related party (Note 4) was spread over 2 years, with future payments and receipts secured by back to back bank guarantees. The arrangement was fully completed and all obligations discharged in March 2019.

(Expressed in Canadian Dollars)

Key Management and Personnel Compensation

The key management personnel include the directors and other officers of the Company. Key management compensation consists of the following:

	Three months ended 30 June		Six months ended 30 June	
	2019	**2018**	**2019**	**2018**
	$	**$**	**$**	**$**
Salary and consulting fees	234,198	241,970	451,883	456,779
Share based compensation	-	12,159	-	24,317
	234,198	254,129	**451,883**	481,096
Included in the above amounts are:				
Upstream Consulting Ltd (James Willis)	7,964	8,072	16,117	16,385
Arenig Energy Ltd (David Llewellyn)	5,973	6,077	12,088	12,289
Michael Adams Reservoir Engineering Ltd (Michael Adams)	95,601	109,408	190,721	220,032

13. SEGMENTED DISCLOSURES

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segment, has been identified as the Chief Executive Officer.

The Company conducts its business as a single operating segment being the acquisition, exploration, development and production of conventional oil and natural gas resources in New Zealand. The Company's geographic area for all assets, liabilities and revenues is New Zealand.

14. COMMITMENTS

As at 30 June 2019, the Company had the following undiscounted contractual obligations:

	2019	**2020 to 2021**	**2022 and onwards**	**Total**
	$	**$**	**$**	**$**
Contract and purchase commitments	**380,000**	**557,000**	**223,000**	**1,160,000**

Bank Guarantees

Bonds provided to the Crown in respect of the Tariki, Waihapa and Ngaere petroleum mining licences are secured by bank guarantees provided by Bank of New Zealand (NZD375,000).

These bank guarantees are secured by way of general security agreement over the present and after acquired assets of Taranaki Ventures Limited (TVL) with NZEC subsidiaries NZEC Holdings Limited, NZEC Tariki Limited, NZEC Waihapa Limited and NZEC Management Limited guaranteeing the obligations of TVL under the facility.

15. PERMIT EXPENDITURE PLANS

The Group undertakes oil and gas production, development and exploration activities and has plans to complete certain exploration activities. Certain permits and licences held by the Group require various work obligations to be performed in order to maintain the permits or licences in good standing. The Group and, where relevant, its co-venturers in a permit, may apply to alter the exploration programs, request extensions, reject development costs, relinquish certain permits or farm out an interest in permits. The permit expenditure plans include those required to maintain its permits in good standing during the current permit term, prior to the Group committing to the next stage of the permit term, where additional expenditure would be required.

Maintaining the permits in good standing during the permit term is based on the fulfilment of the work program and is not based on a specific expenditure level. The anticipated cost of the works planned are set out below and relate to the following permits/licences (in the Taranaki Basin):

(Expressed in Canadian Dollars)

Permit/Licence	Note	Type	2019	2020 to 2021	2022 and onwards	Total
			$	$	$	$
Eltham Permit	1	Exploration	44,000	153,000	-	197,000
Tariki Licence	2	Producing	52,000	953,000	-	1,005,000
Waihapa Ngaere Licence		Producing	-	22,000	32,000	54,000
			96,000	**1,128,000**	**32,000**	**1,256,000**

1) Eltham (PEP51150): the permit expired on 22 September 2018. An Appraisal Extension Application has been lodged (with the regulatory authority) with a modified Work Program and over a reduced area of PEP 51150.
2) Tariki: 2021 - implement project for gas recovery, drill well or sidetrack, and prepare updated field development plan.

16. SUBSEQUENT EVENTS

There have been no subsequent events.
